CONTENTS

Special Issue: Applied Solid Mechanics

Editorial iii

Theoretical and Experimental Aspects of Infinitesimal Plasticity 1
D. W. A. REES (UK)

The Effect of Non-uniform Stress Distribution on the Stability of Biaxially Compressed Plates 69
M. N. PAVLOVIĆ (UK) & G. BAKER (Australia)

Delaminations: Buckling and Growth in a One-dimensional Model 91
J. ROORDA & S. SAKTHYKANAPATHY (Canada)

Dynamic Buckling of Thin-Walled Domes Under External Water Pressure 113
C. T. F. ROSS & T. JOHNS (UK)

Strut Behaviour: Sub-buckling Cyclic Excursion Effects and Risk Assessment 139
NEIL TAYLOR & PAUL HIRST (UK)

The Full Imperfection Behaviour of a Class of Doubly-symmetric Compound Branching Systems 191
P. J. WICKS (UK)

Prediction Type Analyses of Ductile Crack Growth in a Compact Tension Specimen 225
W. S. BLACKBURN (UK)

Effect of Loading Rate on the Fracture Toughness of Steel Weld Metals 251
W. F. DEANS & M. N. MOHD SAID (UK)

The Prediction of Ductile Fracture Initiation in Metalforming Using a Finite Element Method and Various Fracture Criteria 269
P. HARTLEY, S. E. CLIFT, J. SALIMI-NAMIN, C. E. N. STURGESS & I. PILLINGER (UK)

Finite Element Analysis of Precast Concrete Flag Pavements with Reference to Wheel Load Configuration and the Implications on their Design 295
H. AL-KHALID & J. W. BULL (UK)

Ultimate Strength Analysis of Steel Beam-Columns Subject to Biaxial Bending and Torsion 307
M. A. EL-KHENFAS & D. A. NETHERCOT (UK)

Direct Experimental Measurement of the *J*-Integral in Engineering Materials 361
P. M. MACKENZIE, C. A. WALKER, J. MCKELVIE, M. CAULFIELD, S. J. MARSHALL, R. C. RIXON & G. T. REID (UK)
